Blind Bird

Artist: Northern Trails
Music: Thomas Strömbom & Thomas Isberg
Lyrics: Thomas Isberg

My friend turned away and her gaze fled
She saw things I'd never imagined
Straight into the light
Didn't blink at the sun
My blind bird told me about hurt

Pale bird, hidden among trees
One feather I've kept to remind me
I listened to her words
She was brave, I felt worse
My blind bird taught me about hurt

A symphony playing my heart
Hammering those mighty songs
Cast from a broken unforgiven heart

Pale bird, hidden among trees
One feather I've kept to remind me
I listened to her words
She was brave, I felt worse
My blind bird taught me about hurt

A symphony playing my heart
Hammering those mighty songs
Cast from a broken unforgiven heart

I've been hoping
I've been roaring

I've been sobbing
I've been falling
I've been calling out for you

Gave you all I've got
Stayed all night through the storm
Holding on to nothing
Gave you all I've got
Stayed all night through the storm
Holding on to nothing
