Quiet Come

Artist: Northern Trails

Music & lyrics: Thomas Isberg

Come quiet now
Sonic dreams run through you so violently
Can that be songs of love?
Come quiet now
I've been leaning in on you
Into you
Seen how you breath in rhyme

Calm down my love
Let's hide until the storm blows over
Hide and wait for Fields of gold
Part man, part fire
My oxygene levels drop low
Part sane, part wild
I'm fading with the sun light
I'm coming home

Stumbling by your side
Stumbling by your side
Falling into love
Stumbling by your side
Falling into love
Falling into danger with you
With you
With you
