

# Sun Song

**Artist:** Northern Trails

**Music & lyrics:** Laura Pauline Veirs

First rays of light are coming through  
Been seven months since I saw that much blue  
Water rushing in the banks  
Freed from the ice, it has the sun, the sun to thank

It has the sun, the sun to thank  
The sun, sun to thank

Matches inside your golden hair  
Catch all the light, I fight to death, I swear  
As all the other mothers would remember  
Stalked by winter solace in a small, warm hand

We got the sun, the sun to thank  
We got the sun, the sun to thank

Every morning rising to the East  
Shadows fall behind me, shining never sleep  
Till it'll be what I'm asking, no regret  
That you pin the arrows in the wheel

Sun, the sun to thank  
We've got the sun, the sun to thank  
We got the sun, the sun to thank  
We've got the sun, the sun to thank
